SINGA-BOT 2008 Competition showcase

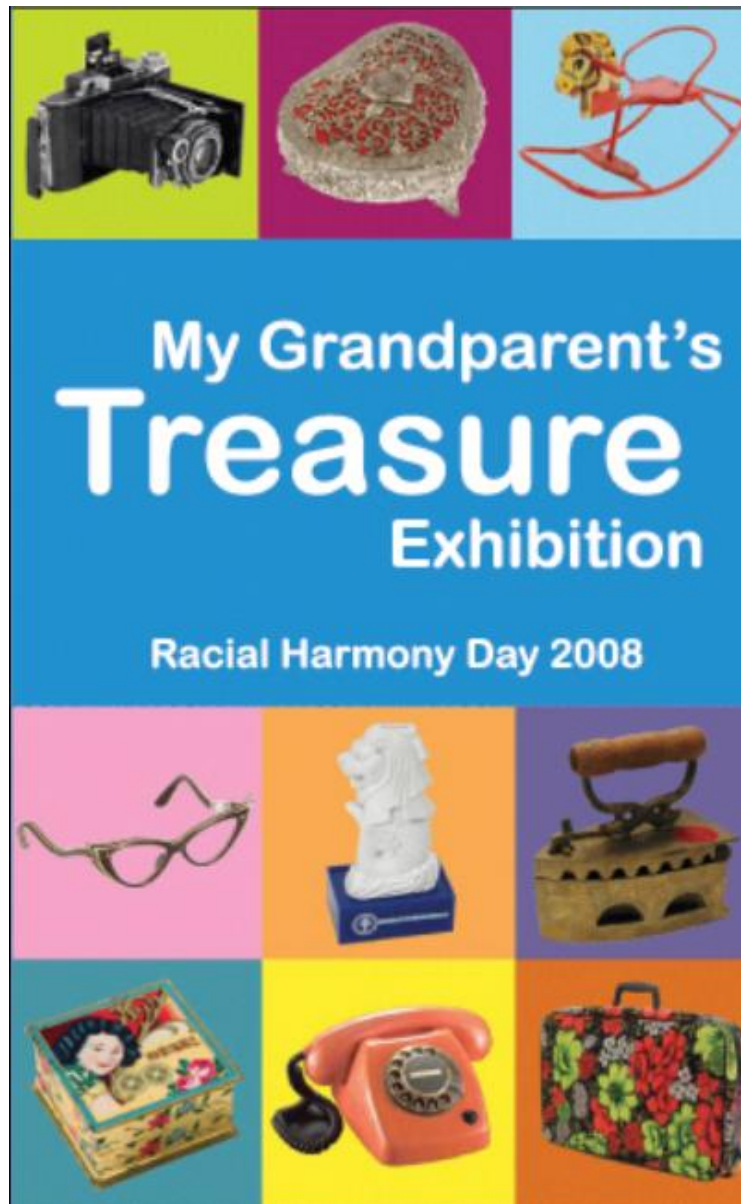

Watch robots dance and move to music, poems or short stories written by Singaporeans.

See how 13 contestants tell their Singapore Stories through the clever maneuver of robots. Come and witness how Singaporeans from all walks of life, gathered together for a common goal. Be amazed by the team work presented between a group of Nanyang Technology University's EEE students and fellow Singaporeans to make their stories alive.

3) 1 July – 30 Aug

My Grandparent's Treasure

This Exhibition showcases ordinary objects which hold extraordinary value to their owners – either in terms of the memory these objects bring about, or because they were given by someone very special. The objects on display were specially selected from a nation wide competition held by the S'pore Discovery Centre for students to send in objects that bear special significance to their grandparents. Find out more about the memories and stories behind the objects here!

4) 9 Aug 2008 – 30 Nov 2008

FOR Singapore by Singapore

SDC celebrates National Day with this photo exhibition of Singapore by Singaporeans. This exhibition will feature intimate photos by local talented photographers on their stories: the people, the places and their dreams.

5) We will also have our Admission ticket priced at \$4.30 on National Day itself, 9 August 2008.

6) Launch of new 3D show – Monster Trucks 4D
