

# KEEPING SG SAF.e

## What is the SAF?

The Singapore Armed Forces (SAF) is the military component of Singapore's Total Defence. The SAF has three services: the Singapore Army, the Republic of Singapore Air Force (RSAF) and the Republic of Singapore Navy (RSN).

## **Together, the tri-services protect Singapore from external threats:**

**Army:** The Singapore Army is tasked with our land operations. As the largest and oldest arm of our armed forces, the Army is the bedrock of our nation's Defence. Ready, Decisive, Respected!

**Airforce:** The RSAF is responsible for protecting Singapore's airspace. With a robust 24/7 networked air defence system, the RSAF constantly monitors the skies over Singapore, enabling us to respond swiftly and decisively to these potential air threats. Above All!

**Navy:** The mission of the RSN is to provide for the seaward defence and ensures the safety and security of sea lanes vital to Singapore. Did you know that all commissioned ships in the RSN have the prefix RSS (Republic of Singapore Ship)? Beyond Horizons!

## Did You Know?

The SAF Day Parade is an annual military parade and ceremony of the Singapore Armed Forces held on 1 July in commemoration of the founding of the SAF.
